Larned State Hospital is the state mental health institution serving the western half of the state. It is composed of three main divisions:

- The **Psychiatric Services Program (PSP)**, which provides mental health services to civilly committed individuals who generally have a shorter length of stay, as they are admitted to the hospital, receive services, and are discharged;
- The **State Security Program (SSP)**, which provides mental health services to individuals referred to the hospital by the District Courts who often have a longer stay due to circumstances surrounding their admission; and
- The **Sexual Predator Treatment Program (SPTP)**, which provides services to individuals determined by a Court to be Sexually Violent Predators. To graduate from the program, individuals are required to successfully progress through the program with gradually decreasing levels of supervision.
