The Judicial Council was created by the 1927 Legislature to study and make recommendations on the legal system in Kansas, namely the administration of justice. The ten-member Council is composed of one Kansas Supreme Court justice, one judge on the Court of Appeals, two district judges, two legislators, and four attorneys. The agency employs five full-time staff.

The agency regularly identifies general areas of improvement and assigns projects to standing advisory committees made up of legislators, judges, attorneys, and other persons from various backgrounds. On occasion, the Judicial Council will create ad hoc committees to study specific legal issues, such as defendant competency in municipal court cases. Once the Judicial Council receives and reviews the work product of these committees, appropriate action is taken. In addition to hosting a variety of committees, the agency provides hundreds of legal forms to the public on its website, and authors and distributes publications that cover many legal topics.

## Agency

The **agency** requests a revised estimate of \$742,842, which is unchanged from the approved amount without reappropriations. Although the agency carried over \$28,164 SGF in unspent funds from FY 2025 into FY 2026, the agency reviewed its funding needs and lapsed the full amount of reappropriations from FY 2025 into FY 2026.

Although the agency's revised estimate is otherwise unchanged from the approved amount in FY 2026, the estimate includes changes within individual categories of expenditure that would not increase the appropriation amount in FY 2026. For example, the agency's revised estimate includes a decrease in the pay of regular unclassified employees due to the retirement of the former Executive Director. However, this reduction is offset by an increase in the pay of temporary unclassified employees and contractual services.

According to the agency, the increase in pay of temporary unclassified employees is due to the agency using that object code to budget for the per diem and subsistence payments to committee

members. Per the agency, approximately 90.0 percent of committee members elect to not receive their subsistence payments, which makes it difficult for the agency to accurately budget for this expenses. In addition, the increase in contractual services is due to website hosting fees and the implementation of an online payment portal, as well as the agency replenishing the supply of custom binders provided to individuals upon purchase of legal publications from the agency.

## Agency

The **agency** requests \$747,485 in expenditures for FY 2027. This is an increase of \$4,643, or 0.6 percent, above the amount approved by the 2025 Legislature.

Once again, the agency is budgeting less for the pay of regular unclassified employees due to the retirement of the former Executive Director. However, this reduction is offset by an increase in the pay of temporary unclassified employees due to the agency budgeting for the per diem and subsistence payments for committee members. The reduction in pay of regular employees is further offset by increases in contractual services expenditures due, in part, to the implementation of an online payment portal for the sale of publications, as well as the agency's plan to distribute four publications rather than three publications for FY 2027.

In addition to the overall increase in expenditures, the agency requests spending authority for official hospitality expenditures in the amount of \$5,000 for beverage and lunch expenses for committee members for FY 2027. This request would not increase the Judicial Council's recommended SGF
